

Metro's angle on supply efficiency.

- Customizable shelf spacing and the ability to use a variety of Super Erecta® shelves and posts **maximize storage capacity.**
- qwikSLOT® shelves can be slanted for **easy access** to supplies while its unique design allows for quick repositioning.
- Wide range of **clear bins** accommodate the multitude of supply sizes.
- Angled shelves, color coded markers, and clear bins aid in swift **visual identification.**

Metro® Two-Bin solutions take efficiency to the next level.

This two-bin solution enhances a facility's inventory management process by providing better visibility of stored items, enhanced replenishment, and maximized storage space. The Metro Two-Bin solution provides a bin offering to accommodate varying supply sizes, a broad shelf offering for space optimization, and color coded markers to help identify supplies by type, application or location.

Visit www.metro.com or call 1-800-992-1776.

Two-Bin

Two Deep

As the first bin is consumed, it is placed on the top shelf or replenishment location while the second bin is pulled forward for use.

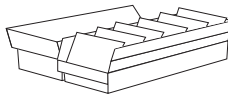

Two High

As the first bin is consumed, it is placed on the top shelf or replenishment location while the contents of the lower bin are fully exposed for use.

Two Wide

For items requiring more than half of the shelf depth. As the first bin is consumed, it is placed on the top shelf or replenishment location while the second bin is used.

Tip

Place bin 2 facing the rear to limit access until bin 1 is consumed

*() Recommended max # of dividers per bin. The number of divider slots may be higher to provide placement flexibility.

Note: Bins are available in carton quantities only. Bins above are priced per each but must be ordered in multiples of carton quantity.

(For example: MB30138CLN is available in quantities of 12, 24, 36. List price refers to the price of 1 bin.)

Dividers are available in carton quantities only. Dividers are sold by the carton and priced by the carton.

(For example: 1 MB40120 = 24 dividers, the list price is for 24 dividers).

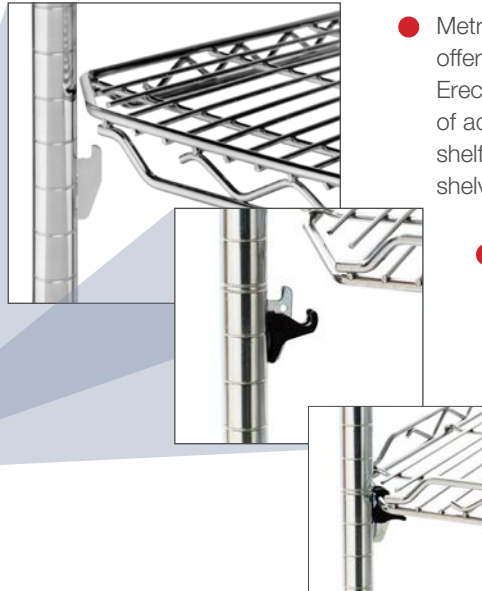

N/A indicates bin does not accept dividers. -Indicates dividers are available by special request. *MB30281 & MB30283 accept length divider only

Set, reset in a flash.

Metro® qwikSLOT® Shelving System

Metro® qwikSLOT® Shelving System
Shown with Solid Bottom Shelf

- Metro® qwikSLOT® shelves offer the quality of Super Erecta® with the convenience of adding or removing a shelf without disturbing the shelves above or below.
- Unique support system snaps into posts, allowing instant shelf adjustment. All shelves adjust in 1" (25 mm) increments.
- Versatile design allows shelves to be installed flat or at a unique angle for ultimate space and display efficiency.
- qwikSLOT is offered in standard or space saving DropMat styles. DropMat includes a 1" (25mm) ledge on four sides.

qwikSLOT® Locking Clip
Optional for use with metal shelf clips. Required for mobile applications.
Cat. No. 9985QSL (4-Pk.)

Metal Shelf Clip
Included with qwikSLOT® shelf.

Note: A typical unit will incorporate 4 qwikSLOT posts, at least 2 Super Erecta shelves (one at the top and bottom of unit) and as many qwikSLOT shelves as desired between the top and bottom shelf. A three sided frame is recommended for increased rigidity.

Note: A qwikSLOT shelf is rated at 300 lbs. (135kg) per shelf. A typical qwikSLOT unit is rated at 800 lbs. (375kg) capacity per unit. For higher unit capacities, an intermediate standard Super Erecta shelf must be installed approximately at mid-height on the unit.

Note: Mobile Applications: All mobile applications require an intermediate standard Super Erecta shelf. Installed approximately at mid-height on the unit.
